

## A BETTER LIFE

(Bieri/Wiederkehr)

Thousands without rights  
Millions without names  
Yes we need freedom and we need justice  
We need equal rights for equal human beings.

Slaves, the world's full of new slaves  
And a huge part of human beings are in chains  
We need an ethic law and new religions  
Where God is everywhere and humans co-create a better life.

And shure it is,  
We need equal rights for equal human beings.

Where are our voices?  
Do we have enough light?  
Can we find new release?  
To create worldwide peace?  
Yes I know that we all realize whatever we're desiring strongly  
whatever we may wish deeply in our hearts

Yes we all will win, when freedom comes  
And peace will fulfil our hearts  
And we create a better life for all – for all – for all.
