

SAD BOY

(Bieri/Wiederkehr)

Hey boy – is this true?
I think you're lying – is that what you do?
But I should know boy – if you play with me
This is not a game now – it's a serious play
I know you cheat, you cheat you cheat, you cheat, you are cheating.
There I see you hiding, behind a mountain of beautiful words!

You are lying and you're cheating
Son of a bitch – you are
You are lying, that's what you do
You are playing all night long
You're a sad boy – you know you're a sad boy
You're a sad boy – you know you're a sad boy

Sad boy – sad boy – sad boy – sad, sad boy

Hey boy, you need to see that broken heart's around you
That makes you feel alive, that makes you feel real
That makes you feel so cool
But you're a sad boy you're just a sad boy, that's what you are!

Sad boy – sad boy – sad boy – sad, sad boy

Hey boy – is this true
I think you're lying – is that what you do?
You're even worse now, don't apologize!
Now there's no way how you could get back my love!

You need to see that broken heart's around you
You need to see that broken heart's around you
That makes you feel alive, that makes you feel alive,
that makes you feel real! Yeah
You're a sad boy you know you're a sad boy!
You're a sad boy you know you're a sad boy!
You're a sad boy you know you're a sad boy!
