

THIS EARTH

(Bieri/Wiederkehr)

This earth is surprising
Changing now its old face
Still each day sun is rising
But we don't know what tomorrow comes

But me, I'm ready to change
'Cause I'm keeping faith
love is my only religion
good intentions are all that we need

This life is surprising
Changing old in new believes
Strong insights now are rising
Human race is going to change

And still I'm ready
I'm ready to change
I keep my heart open
We should be fearless in our lifes.

'Cause we create the new world
And we create ourselves
I am free as a bird
This is how I did come here

But me, I'm ready to change
'Cuase I'm keeping faith
love is my only religion
good intentions are all that we need

We create the new world
