

YOU ARE IN MY DREAMS

(Bieri/Wiederkehr)

You are in my dreams do I just sleep?
Or have I day dreams? How they are deep!

There are loveley things to see
Under this moonlight shining tree
You touch me with your kind way
But I can't see where we exactly stay
But what I know, you're in my dream

You are in my dreams. Clearly i feel you
And in these long dreams, I'm loving you

Children palying carneval, songs and laughter in the air,
Light and colours everywhere, and there

You touch me with your kind way
And now I can see where we exactly stay
We are in my dream.

You are in my dream. There you search for me
And in this sweet dream, you're loving me.

Somene's coming in my dream, running behind his horse and streams
I know the end is coming now, I have to wake up slowly slow

Please come and touch me, with your kind way
Cause I don't want to see, that we are living far away
Let's stay together in my dream

We are in my dream, and this is true
I love this small dream, as I love you.
